Mr. T. Nelson  
Box 1546  
Poughkeepsie, New York 12603

Dear Sir:

Thank you for your interest in Tymshare. Please find enclosed literature and price schedules for our portable terminal equipment and computer time-sharing service.

In order to use the Audio Magnetic Data Transceiver with a Model 33 or 35 teletype as a remote portable computer terminal, the Electronic Interface Adapter is required to interface the transceiver and teletype. The adapter has been designed so it can be easily installed in the teletype and installation instructions are provided with the equipment.

Present shipping schedules for the Transceiver and Adapter are approximately 2 weeks from receipt of your order. We are currently out of stock of teletypes; however they may be purchased from Teletype Corporation in Skokie, Illinois.

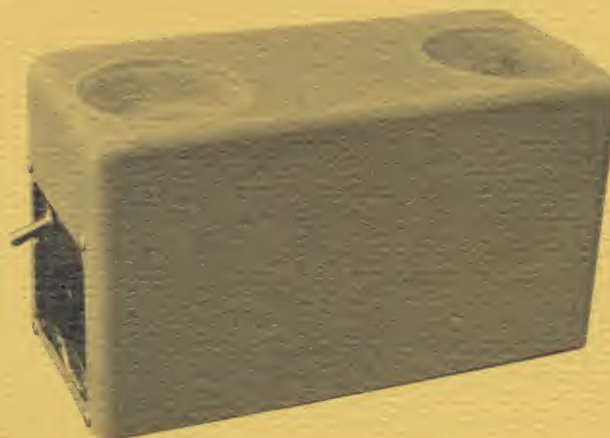

Thank you again for your inquiry. If you would like additional information, please don't hesitate to contact me.

Sincerely,

John K. Jerrehian  
Sales Manager

# AUDIO MAGNETIC DATA TRANSCIVER

The Audio Magnetic Data Transceiver provides the capability to operate a Model 33 or 35 teletype (or similar device) as a portable remote computer terminal. The terminal may be used to communicate with a computer connected to a Model 103AII dataset from any location where a standard telephone is available. By simply dialing the number of the computer from the telephone and placing the telephone handset on the Audio Magnetic Data Transceiver, information can be transmitted to and from the terminal device and computer over standard telephone lines.

## Features:

- Acoustic send—magnetic receive\* eliminates interference from local room noise
- Operates either half or full duplex
- Small compact design
- Operates with Model 33 or 35 teletype
- A-C power outlet for teletype
- High reliability—100% solid state design incorporating silicon components

## Specifications:

Height	4 inches	
Width	4 inches	
Length	9 inches	
Weight	4 pounds, 5 ounces	
Electrical requirement	115 volts, 60 cycles	
Transmission rate	165 baud maximum	
Frequencies	Send	Receive
mark	1270	2225
space	1070	2025

\*Acoustic receive also available
